

Resume of Verdad Systems Consultant

Vivek Sathe, PMP

Core Profile:

- Program and Project Management
- Software Application Architecture and Integration
- IT Strategy & Management
- Enterprise Software Selection and Implementation

Experience Summary:

Mr. Sathe is a seasoned IT professional with over twenty years of domestic and international experience. He started his career with Tata Unisys where he worked on developing Software Products for Retail Banking and Foreign Exchange/Securities Trading before moving to HBSC (Hong Kong and Shanghai Banking Corporation) where he implemented and supported the retail banking system for the branches located throughout India.

He joined Decision Technologies Ltd. (DTI) as a consultant for the implementation of Enterprise level software solutions utilizing PeopleSoft and JD Edwards software suites. Mr. Sathe's success at implementing challenging solutions for financial consolidations, credit card authorizations, General Ledger, Accounts Payable, Accounts Receivable, and Fixed Assets earned him the position of Director of Operations for DTI.

His career continued at System Management Inc. (SMI) where as VP for Northern California his team managed major projects in the areas of Business Intelligence, e-Commerce, Cognos, and Budgeting and Forecasting. In addition, while at SMI he developed key relationships with Oracle Corporation that contributed to the 70% revenue growth for the Northern California practice.

Mr. Sathe has had recent engagements with Fortune 500 financial institutions and Leasing companies providing leadership for Business Intelligence applications, software selection, and project management.

Expertise includes:

- Software Development and Implementation
- ERP and Business Intelligence
- Corporate Performance Management
- Program and Project Management
- Application Integration
- Infrastructure and IT Architectures

Mr. Sathe has worked in diverse industries and markets that bring extensive knowledge about systems, architecture, software applications, and operations methods to any engagement. Industry and market experience include the Financial Services, Manufacturing, e-Commerce, Semi-Conductor, Medical Device, and Leasing segments.

Education:

- MBA - Marketing Management
- BS - Mechanical Engineering
